-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 10-11 and 14-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Galockin (4,742,939). Galockin discloses a refrigerating apparatus for chilling an object 14, the refrigerator apparatus forming a part of refrigerator 12 and comprising a chamber having a longitudinal axis, an inlet 52 and outlet 54 spaced along the longitudinal axis, a device generating a fluid flow through an inlet tube 52 within the chamber and a structure for causing the fluid flow to follow a helical path about the longitudinal axis within the chamber between the inlet 52 and the outlet 54. See Fig1.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-9 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Galockin. Galockin discloses the invention substantially as claimed as stated above except a chilled air-flow, a fan and plurality of chambers each chamber housing an object to be chilled. The inlet tube 52 of the tubing 48 is coupled to a source of coolant or refrigerant (see column 3, lines 21-23). This coolant inherently coupled with a

cooler/evaporator and with a pump. This coolant in tube 48 can obviously be an cooled air and in that case there should be an air mover like circulator of the fluid in tube 48; the plurality of housing for holding multiple objects is a duplicate use of a single housing for holding the a single object and it will be an obvious repetition of the claim with single objet.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad M. Ali whose telephone number is 571-272-4806. The examiner can normally be reached on maxiflex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl J. Tyler can be reached on 571-272-4808. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
